Assurance Levels

Level	Description
AL0	The developer reviews applicable ADA requirements and confirms their product meets every requirement, then completes a questionnaire to represent their application's compliance with ADA requirements. The developer guarantees the completeness and accuracy of the questionnaire
AL1	The developer provides evidence and statements of compliance to each audit test case. The ADA approved lab reviews the evidence against the requirements. The ADA approved lab does not directly assess the application.
AL2	The ADA approved lab evaluates each audit test case directly against the application. In some cases, the developer may need to provide limited information or code snippets.
